

UCSF Research and Academic Building at ZSFG

August 2018 Update

Recent Activity:

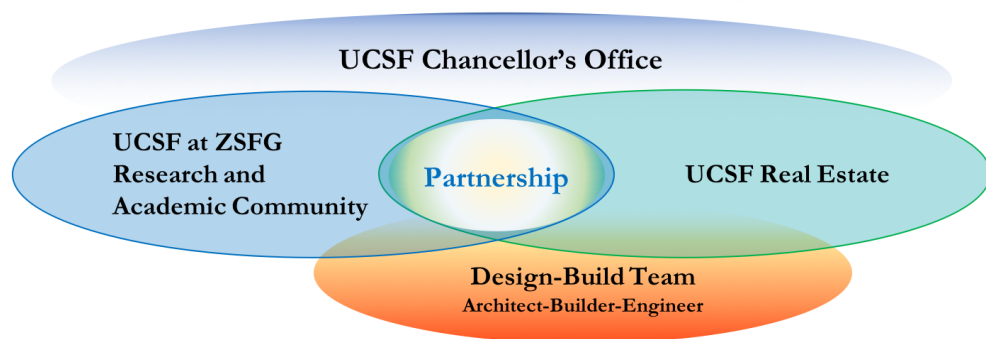

- The online [project FAQs](#) were recently updated. The link can be found at the space.ucsf.edu website under [Campus Sites: ZSFG](#)
- Architecture firms were invited to submit their qualifications to bid on the project on July 25th

Anticipated Activity in the Near Future:

- A builder for the project will be chosen after interviews with qualifying firms conducted on August 23rd and 27th
- Soil sample tests will be performed at the building site during the week of August 27th, with minimal impact to parking in the B/C lot
- An architect will be chosen in September, and plans for user input into the design will then be finalized and shared

Reminder of the Month:

- A successful research and academic facility will be built on productive partnerships among the teams involved:
