

## UCSF Research and Academic Building at ZSFG

January 2019 Update

## Recent Activity:

- The Boldt Company, in partnership with UCSF and with input from representatives of the UCSF community at ZSFG, has selected Skidmore, Owings & Merrill (SOM) as the project architect.
- The ZSFG Dean's office issued an invitation to participate in 5 categories of design groups: wet lab, dry lab, cores, education, patient research.

## Anticipated Activity in the Near Future:

- A Town Hall for the project will take place Wednesday, January 30<sup>th</sup> at 12:00 noon in Carr Auditorium. Vice Dean Sue Carlisle will provide an update and introduce members of the Design-Build Team.
- The next edition of the UCSF Research and Academic Building at ZSFG newsletter is coming soon.
- Skidmore, Owings & Merrill, in partnership with the ZSFG Dean's Office, will finalize the structure of the design phase and design groups.

## Reminder of the Month:

-UCSF research and education programs at ZSFG are cutting edge and world class, with unique needs and diverse areas of focus.

-These needs must be well represented in the building design for it to serve us optimally

-Flexible design is necessary to anticipate the strides we take in research and academics for decades to come

**Action Steps:** Share this information, and volunteer to participate
