

UCSF Research and Academic Building at ZSFG

June 2019 Update

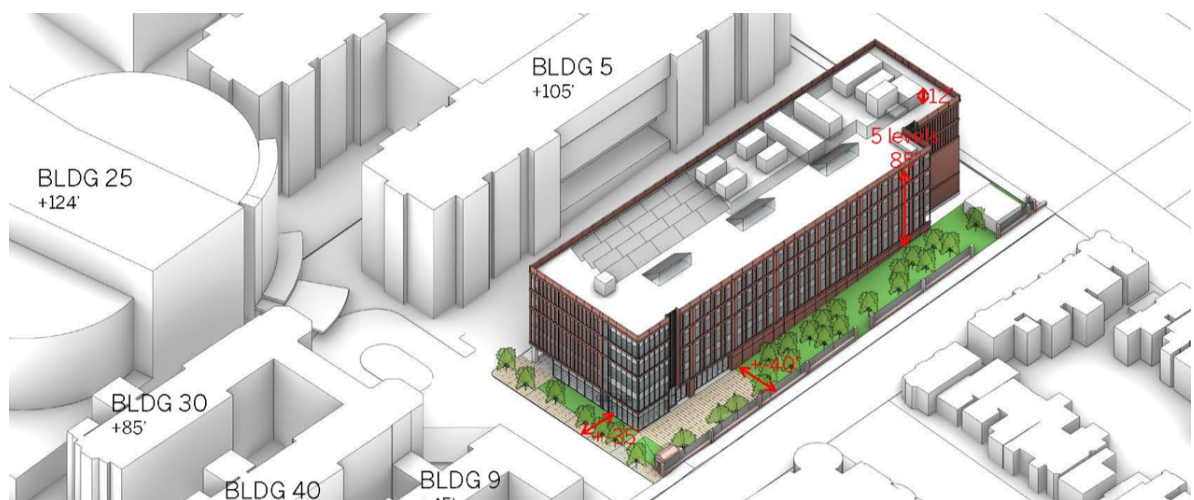

Recent Activity:

- The project's Executive Oversight Committee (EOC) reviewed proposed building program modifications for impact to space, schedule, and budget.
- The Project Team presented to the Health Commission on June 4th as part of the project's schedule for community engagement and approvals.

Anticipated Activity in the Near Future:

- Program modifications which are approved by the EOC will then become part of Schematic Design, the basis for the Design Development phase.
- The next round of Design Group meetings is expected in late July.
- The next ZSFG Community Meeting is scheduled for July 24th.

Reminder of the Month: Through all of our hard work reviewing needs, making decisions, and getting the details just right, remember...

the end product will be a brand new, world class, state-of-the-art facility!
