

UCSF Research and Academic Building at ZSFG

March 2019 Update

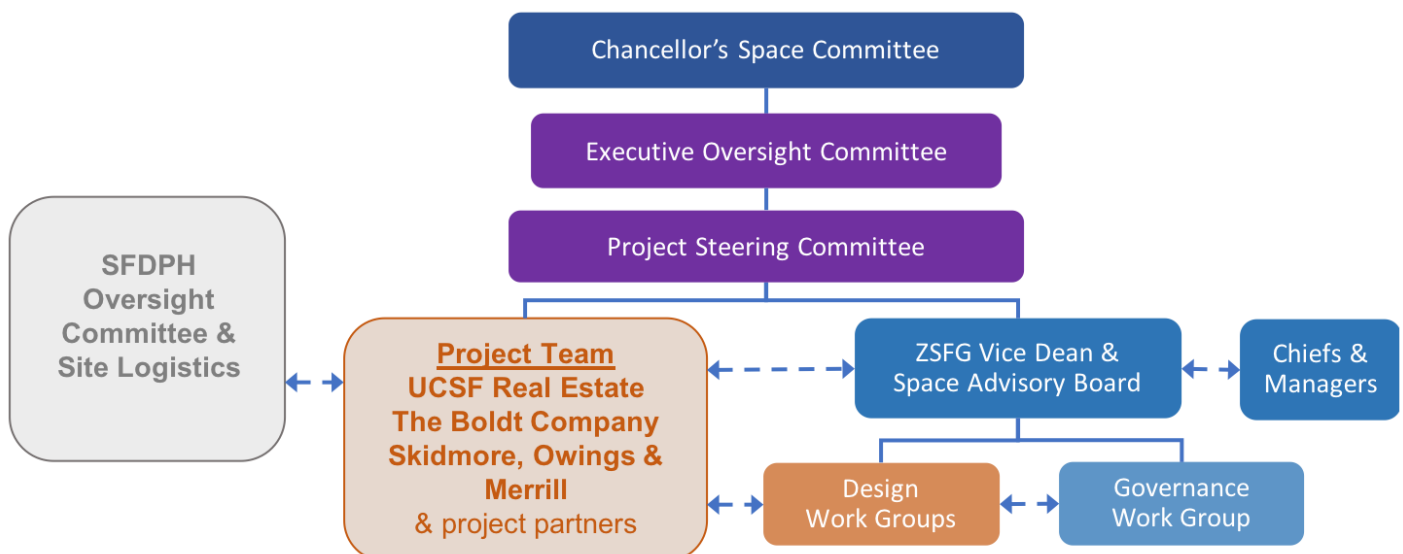

Recent Activity:

- Architect Skidmore, Owings & Merrill (SOM) presented options for arrangement of spaces in the second round of Design Group meetings.
- The Project Steering Committee reviewed output from the Design Groups at its initial meeting for the Schematic Design phase.

Anticipated Activity in the Near Future:

- SOM will create a schematic design, illustrating basic layout and design concepts for the building, based on discussions in the Design Groups.
- The schematic design will be reviewed by the Project Steering Committee and Executive Oversight Committee, and will be refined in the Design Development phase.

Reminder of the Month: The Project Committee Structure:

Action Steps: Check in with members the of Design Groups
