

UCSF Research and Academic Building at ZSFG

Welcome to the third edition of the UCSF Research and Academic Building at ZSFG project newsletter. This will be a regular update with news and information about the planning and construction of a new UCSF facility at ZSFG.

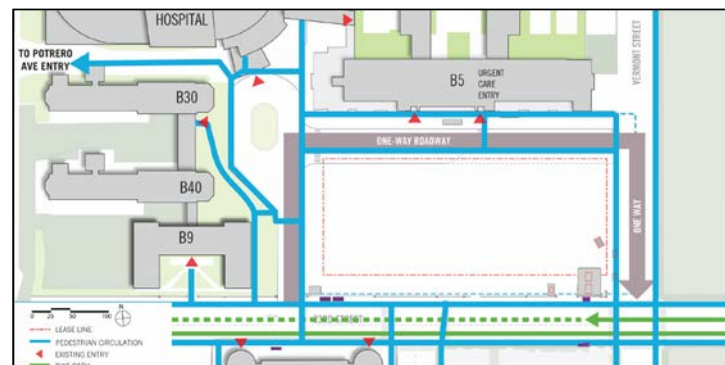

This newsletter will be sent via email to the UCSF community at ZSFG and can also be found [online](#).

Town Hall June 18

A town hall for the UCSF Research and Academic Building at ZSFG was held on June 18 in Carr Auditorium. Vice Dean Sue Carlisle presented information about the project and answered some of the most commonly asked questions before opening the floor to audience questions. A video of the presentation has been [archived online](#); UCSF login required.

Roadway improvements

To improve vehicle circulation on the campus and in support of the new building project, a separate roadway improvement project is planned that will connect the traffic loop south of Building 25 with Vermont Street to the east. This will allow for continued access to the Adult Urgent Care Center after its relocation to the southeast corner of Building 5; improve access to the project site during construction; and provide additional access to the UCSF Research and Academic Building at ZSFG when it is complete.

Selection continues for design and construction team

The process of hiring the team to design and build the UCSF Research and Academic Building at ZSFG is progressing. Final proposals from prequalified contractors are being considered and initial proposals from architecture and engineering firms are being submitted to the University. The selection of the main members of this integrated project team is expected to be completed in fall 2018 and the design process will begin once the team is in place.

Designing the building

Once the project team is in place (see update above) the Vice Dean's Office at ZSFG will organize a set of Design Affinity Group meetings. These meetings will give future occupants from all parts of the UCSF community at ZSFG an opportunity to discuss their needs with the project architect and refine design ideas for wet and dry work spaces, shared support areas, cores and specialty spaces, huddle and conference rooms, and other space types. Input from the groups will be used to inform the initial schematic design, which will be further developed to produce the final building plans.

The UCSF RAB at ZSFG project

UCSF is building a new research and academic building at the Priscilla Chan and Mark Zuckerberg San Francisco General Hospital and Trauma Center Campus (ZSFG); construction of the new UCSF research building is expected to begin in 2019. For more details about the project please visit the [ZSFG pages](#) at space.ucsf.edu.

Project communications, FAQ's, and websites

Questions or concerns about the UCSF Research and Academic Building at ZSFG project can go to UCSF-RAB-ZSFG@ucsf.edu. These messages will be addressed by the building project team.

A set of [Frequently Asked Questions \(FAQ's\)](#) about the UCSF Research and Academic Building at ZSFG was updated recently. If you have a question you would like to add to the FAQ's, please send it to UCSF-RAB-ZSFG@ucsf.edu.

SF Department of Public Health construction at ZSFG

The SF Department of Public Health (SFDPH) is planning several construction projects at the ZSFG campus as part of the City's 2016 Public Health & Safety Bond. You can learn more about SFDPH plans in their newsletter [Building Our Future](#).
