3 Steps to Update Space
Archibus Space Management System

From the Homepage under the Tasks bucket select the “Space Update Form” link
1. The Space Update Form is used by Campus to make changes to room attributes. Coordinators are assigned access to department(s) and can only edit rooms assigned within their access. Strategists are granted access to all the rooms assigned to their Control Point.

Step 1 – Checkout a Room

- The form defaults to the “Active Space Update Room List” tab to show you all rooms that you have checked out or have been checked out by someone who has the same DeptID access as you.
- Click the My Room List tab to select a room from your inventory of rooms that can be edited.
- Records in a status other than “Ready” cannot be selected to update. These records are already in the process of being updated or are under review for approval.
- Check the check box next to a room with ‘Space Update Status’ of “Ready” to begin the editing process.

Other things you can do in the “My Room List” tab:
1. To view Floor Plans: Click on the Floor Plan Icon
2. To Add/Edit a Note to a room: Click on the Edit Notes Icon. Notes added are submitted to the database immediately.

Step 2 – Select a Checked out room for editing

1. Rooms checked out from My Room List tab and selected to Update are moved to the “Active Space Update Room List” tab. The rooms displayed on this tab are now ready to be edited.
   - Click anywhere on the row of attributes for the room to open the room in the “Room Details” tab for editing.

Other things you can do in the “Active Space Update Room List” tab not already addressed are:

1. Click the Withdraw button to return the room to your My Room List tab.

2. Select the Submit button located at the top right of the page to Submit any changes made to the database or into workflow for approval.

3. Select the Space Surveyed button to mark that room information has been verified and updated as needed.

4. Only Coordinator’s participating the in the F&A Survey need to select the Complete F&A Survey button upon completing their room review. Disregard this button if you have not been contacted about participating in the F&A Survey.

5. Click the Compare button to view proposed changes to a room that you or someone with the same DeptID access to update the room has been working on.
   - This Compare view will show Current attributes for the room stored in the database and Proposed changes if any.
   - Proposed changes will be blank when the room is first moved to waiting.
   - In Step - 3 below, if you save your changes and later access the form. You can view any previously proposed changes before submitting or making additional edits

Select the “Update Rooms” button located at the top right of the page to check the room out when you are ready to edit it.
Step 3 – Edit My Room

1. The “Room Details” tab grants access to specific attributes of the room for editing. The view is divided into three sections*.
   1. **Room Information** – use to view and make updates to Category/Types and Station Counts
   2. **Department/PI Splits** – use to view and make updates to Department assignments, PI name and Percentage of Space, Loan Assignments
   3. **Occupancy** – use to view and make employee location changes

   *For F&A Required = YES rooms, an additional fourth section will appear after the room has been marked as Space Surveyed called the Room Functionalization panel

- Use the Pencil icon to edit the available attributes for the room under the Room Information and Department/PI Splits panels. A pop up window will open to enable editing of the available fields.

- Use the X icon to delete a department from the room in the Department/PI Splits.

- Under the Department/PI Splits the Percentage of Space is open for direct editing. Click directly into the field to update. Note: the percentage of space for the room cannot exceed 100%

- Use the Loan Info icon to add Loan information for the room.

- Use the Add New button under the Department/PI Splits and Occupancy panels to add a new Department or Employee to the room. *(if allowed as per your access)*

- Use the Remove button under the Occupancy panel to remove an employee from the room

**Note:** You will only have access to the DeptIDs that you have been assigned to manage. If the room is shared and you do not have access to the other DeptID, you will have to discuss changes to percentage of space, Station Counts or Category/Types changes that may impact the other department.

- Other things you can do in the “Room Details” tab not already addressed:
  1. Use the Save button to save any changes made to the room in the “Room Details” tab. Save does not Submit the changes to the database.

  ![Save button](image)

  **Note:**

  - Use the Cancel button to exit the “Room Details” tab without saving any changes.

  ![Cancel button](image)

  **Note:**

  - Use the Submit button to commit your changes to the database

  ![Submit button](image)

  **Note:**

  - Employee edits – addition or removal of an employee from the rooms do not require to be submitted. You can edit the rooms and simply withdraw the rooms and the changes employee occupancy related changes will be saved.

    *(For this particular scenario, there should be no other change proposed to the room).*

**Standard Space Update Form Workflow Rules**

1. These items when submitted are saved immediately to the database.
   1. Notes
   2. PI Name
   3. Department Name
   4. Loan Information

2. These items when submitted are routed for additional approval.
   1. Station Counts, Room Category or Room Type changes are routed to the System Administrator (Space Analytics Team)
   2. If a Coordinator has access to and is making changes to multiple divisions within or across Control points the proposed change is routed to the Strategist for review.

**Note:**

Strategist will not receive any system generated notifications to approve these rooms. Strategist can filter these rooms in their ‘My Room List’ with a Status of ‘Submitted-Pending Approval’.
3 Steps to Update Space
Archibus Space Management System

Below is a chart that explains when the **Space Update Form** should be used vs. a **Space Request Form**

<table>
<thead>
<tr>
<th>Use the <strong>Space Update Form</strong> to…</th>
<th>Use the <strong>Space Request Form</strong> to…</th>
</tr>
</thead>
<tbody>
<tr>
<td>Make Room Category and/or Room Type changes</td>
<td>Change the Division/Department Name Assignment or Percentage of Space to a Dept. ID outside of your assigned permissions</td>
</tr>
</tbody>
</table>
| Change the PI Assignment | Request a New space assignment  
E.g., A Department needs more Wet Lab space to accommodate new facility |
| Add Notes to a Room | Vacate (releasing) space  
E.g., A Department is ending a grant-funded program and wants to release their space back to the Dean’s Office |
| Indicate who the loan is from for an existing loan | Initiate a Loan with another department  
Includes loans both within and across control point |
