

# Parnassus Research Space Programming Task Force Charge

- a. Validate and resolve gaps in the **list of existing and planned research programs at Parnassus** done in 2020 by the Parnassus Research Space Working Group.
- b. Assess the projected growth needs of existing and planned **research programs** based on **existing and promised space allocations**.
- c. **Define the identity of the 4 “Discovery Zones”** with **anchor themes/programs** as conceptualized by the Parnassus Research Programming Task Force. The definitions will be provided to the UCSF Space Committee by **May 2021** to meet PRAB space program requirements.
- d. **Map location of research programs across Discovery Zones** at Parnassus over the next decade, including space in the new PRAB; released space in HSE, HSW, MSB and Koret associated with opening of the PRAB; and any other unoccupied or unassigned space
- e. If applicable, make recommendations on possible **moves of research programs between Parnassus and Mission Bay**.
- f. **Communicate** recommendations to the appropriate audiences
- g. Inform the visioning of the PRAB design by participation in the **Visioning Workshops**.
