

Recent Activity:

- UCSF faculty at ZSFG submitted a request to the project's Executive Oversight Committee asking to retain use of Buildings 3 and 9. This letter and the Committee's response were shared with the ZSFG community.
- The project team held meetings with Design Group chairs to resolve some details in preparation for the next round of Design Group meetings.

Anticipated Activity in the Near Future:

- The project team will establish a structure for Design Development meetings that will be held with the full Design Groups.
- The next ZSFG Community Meeting is scheduled for July 24th.

Reminder of the Month: Our new building will meet an immediate need for updated and compliant research and education space at ZSFG.

Future projects and partnership agreements will increase available space.

Action Steps: Watch the [project website](#) for upcoming developments
