

Recent Activity:

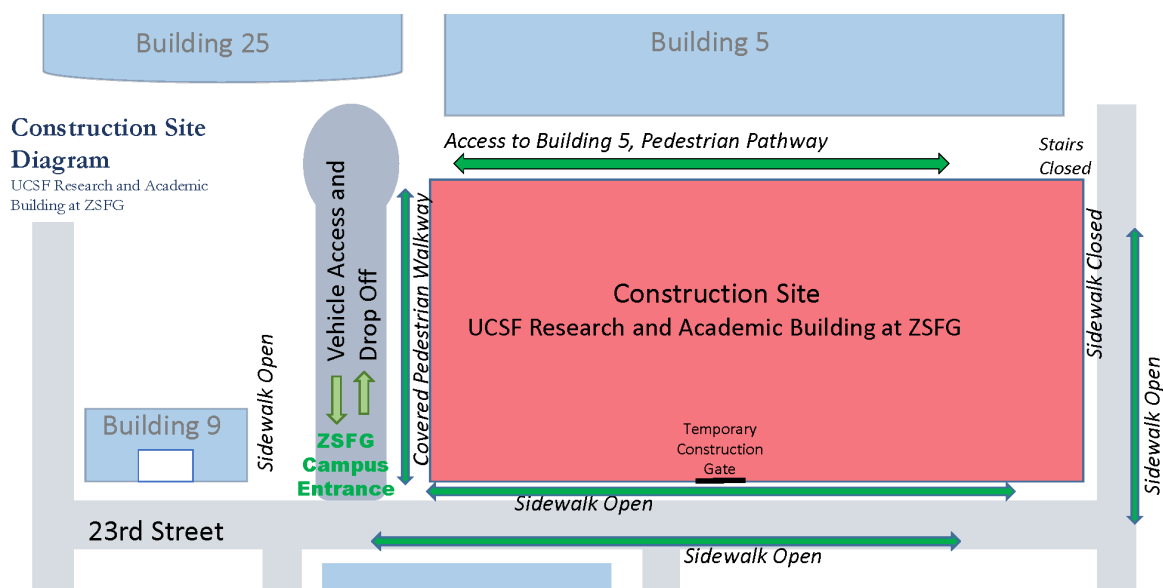

- The pedestrian walkway was installed on the west side of the project site.
- A new web page provides detailed information about RAB construction at <https://space.ucsf.edu/construction-ucsf-research-and-academic-building-zsfg>.

Anticipated Activity in the Near Future:

- A remote Town Hall event is scheduled for 12-1pm on August 19th.
- Upcoming noisy work: demolition and removal of existing asphalt, trimming and removing of select trees are expected to begin the week of July 27.
- A section of the brick wall on 23rd Street will be removed to create a temporary access gate. The removed brick will be stored and reinstalled later.

Reminder of the Month:

Initial activity establishes safe pedestrian access around the site

Action Steps: Mark your calendars for the August 19th Town Hall at 12pm
