

Construction Update

Parking, Roadway and Walkway Closures on Campus

Friday – Sunday June 8-10 Tower Crane Installation

The installation of the tower crane for the CSB Retrofit and Renovation project is scheduled Friday June 8 – Sunday June 10. To allow for safe installation, the following changes are scheduled those days on campus:

- No parking on Koret Way Saturday June 9.
- The pedestrian “Spine” between UC Hall and Nursing will be closed Saturday June 9.
- Friday – Sunday June 8-10 no parking, vehicle, or pedestrian access to area at the top of Koret Way, between the Beckman Vision Center and School of Nursing.
- Extended work hours: Saturday 6am – 8pm; Sunday 9am – 5pm.

Detour signs will be posted on site and flaggers will direct vehicle and pedestrian traffic. A graphic is available online at the [CSB page on the Space website](#). Strong wind will impact the installation schedule.

Apologies for any impacts and thank you for your patience.
