

Upcoming Construction Activity in Mission Bay

Noise and Vibration Expected Near Byers Hall July 23 – August 3

Noisy activity is scheduled July 23 – August 3 on the north side of Byers Hall. Activity is focused on shoring for a new manhole as part of the underground utility extension project and includes the use of heavy equipment, which bring noise and vibration. This work is not expected to be continuous. Walkways and sidewalks in the area will remain open.

4th Street Sidewalk Closure July 24

The sidewalk on the east side of 4th Street adjacent to the Weill Neurosciences Building job site is scheduled to be closed on Tuesday July 24 from 8:30am-4pm to allow for underground utility testing. The closure will be from Gene Friend Way to Campus Way. Pedestrians will be redirected to the west side of the street.

Roadway Work on Campus Way

Construction activity is scheduled on Campus Way near the entrance to the Mission Hall surface parking lot Thurs – Sat July 26-28. Work in the roadway may create short delays for vehicles entering or exiting the surface lot. Flaggers will be present to direct traffic. Access to the 3rd Street Garage will not be impacted by this activity.

Please note all dates are subject to change.

Work hours are 7am – 5pm weekdays, with noisy work scheduled to start at 8am.

Our apologies for any inconveniences this work causes.

Questions or concerns about the work underway can be directed to WeillNeuroBldg@ucsf.edu or 415.502.4013.
